

## **India Electronics Expo (INDELXPO 2026) March 23-25, 2026 | New Delhi, India**

The **Electronics and Computer Software Export Promotion Council (ESC)** proudly announces the **11th edition of the India Electronics Expo (INDELXPO)**, scheduled to take place from **March 23 to 25, 2026**, in **New Delhi, India**. This flagship international event will highlight India's rapidly expanding capabilities in electronics manufacturing, innovation, and high-tech product development for a global audience.

India's electronics sector is undergoing significant transformation, driven by increasing domestic demand, global supply chain diversification, and strong policy support. Government initiatives such as the **Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS)** and the **Electronics Components and Manufacturing Scheme (ECMS)** are reinforcing India's ambition to become a reliable global hub for electronics design and manufacturing.

Building on the success of previous editions—most recently the 2025 edition, which received over **600 international buyers from more than 80 countries**—INDELXPO continues to serve as a premier platform connecting Indian manufacturers with overseas buyers, distributors, and industry leaders.

The 2026 edition will feature a comprehensive showcase of Indian expertise across consumer electronics, telecom equipment, medical electronics, security systems, renewable-energy devices, and a wide range of electronic components including semiconductors, active and passive components, and interconnect solutions. The event will also spotlight emerging technologies such as IoT, drones, embedded systems, smart city solutions, and advanced electronic manufacturing services.

Overseas delegates will have the opportunity to explore high-quality, competitively priced products and innovative solutions across the electronics value chain. The expo is supported by the **Ministry of Commerce & Industry, Government of India**, under the **Market Access Initiative (MAI)** scheme, and selected international participants may qualify for the **Hosted Buyers Program**.

For more information and buyer nomination guidelines, please visit [www.indiaelectronicsexpo.com](http://www.indiaelectronicsexpo.com) and check the attached documents.

Join us at **INDELXPO 2026** as India redefines its role as a trusted global partner in high-tech electronics and supply chain diversification.
